

The Cultural Arts Committee met with the Travel Committee on January 28. . It was a pleasure to introduce Ron Currin as a new member of the committees. During the meeting, a number of new ideas for later in 2019 were discussed but are too early to report.

Since the last report for the January meeting of the Board, the committee has been productive. The OSU planetarium event in January attracted ca. 79 registrants. In February, the event at the Civic Theatre had a waitlist, and the trip to Cincinnati for the National Underground Railroad Museum and Freedom Center has exceeded in registrations the minimum needed. Already the tour of the Center for Automotive Research has a waitlist.

Maryanne Anderson has left the committee and the trip to Nashville that was being investigated for the spring is no longer under consideration.

See event calendar below:
